

### 3. Any other business

Turkey proposed the introduction of Laser 4.7 Class into the Balkan Championship. That proposal was supported by Montenegro, Romania and Bulgaria, however the additional costs were mentioned as a risk if this can be sustainable. Romanian Federation suggested that a set of rules should be created that will determine which classes should be included in the competition as well as which classes can be excluded from the competition. It was suggested that Internet sites are created as a forum that will provide inputs from competitors and officials. A separate forum would be created to make decisions of the suggestions.

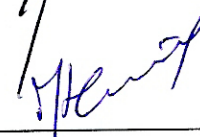

Takis Nikiforidis - Greece

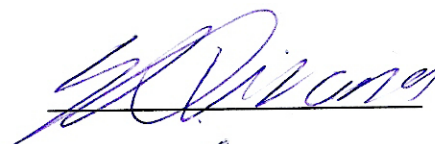

Mihai Butucaru – Romania

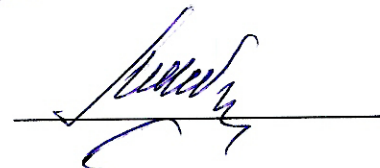

Nikola Aleksandrov – Bulgaria

Edhem Dirvana – Turkey

Miodrag Šebek – Serbia

Branko Bogdanović – Montenegro
